About This Workshop

If you've thought about running a Math Workshop but feel overwhelmed and have no idea where to begin, then this is the workshop for you. You'll learn strategies and resources you can implement to have a manageable Math Workshop up and running in no time.

We'll begin by exploring different workshop models and helping you choose the best fit for you and your students. Next we'll explore what type of tasks to include in workstations and how to manage supplies and materials. Lastly we'll discuss strategies to ensure students are on task and consider what to do if it doesn't go as planned.

About the Instructor

Christine Michalyshen

Christine has over 30 years of combined teaching, coaching and consulting experience. From the beginning of her teaching career, Christine has specialized in mathematics instruction with an emphasis on differentiation. More recently she has been sharing her passion for teaching mathematics by coaching in kindergarten to grade nine classrooms using Guided Math. Christine has successfully facilitated the implementation of Guided Math in many school divisions across Canada.
