WORKSHOP FACT SHEET

How To Turn Student Mistakes Into Powerful Learning Opportunities For Grades 6 To 12

by Stephanie Marrero

$49.00

(**$58.80** for 12 months access)

View Workshop

Subjects: Mathematics, General, English, Science

Start Date: Immediate access

Access: 4 months

Timing: Self-paced with no set meeting time

PD Hours: 2 Professional Development Hours

Credits: 1 Graduate Level PD Credit Available

Topics Covered:

- Helping Students Learn from Mistakes
- Building a Mistake-Friendly Classroom Culture
- Diagnosing and Responding to Different Types of Errors
- Embedding Error Analysis into Daily Math Routines
- Using Error Analysis for Low Test and High Impact Test Prep Activities

One tree will be planted per registration (partnership with One Tree Planted).

About This Workshop

If you're feeling frustrated and overwhelmed by students making the same mistakes, despite using all the right strategies, this workshop is for you. You'll learn how to shift from "What am I doing wrong?" to "What are my students showing me?" and use that insight to reteach with purpose. We'll break down the types of mistakes students make, how to respond to them, and simple routines to build a classroom culture where errors are celebrated, not feared. You'll walk away with practical tools to boost both your confidence and your students', so mistakes become stepping stones, not setbacks.

About the Instructor

Stephanie Marrero

Stephanie Marrero is a veteran Special Education Math teacher with over 12 years of experience helping students build confidence and clarity in math. Now, she supports teachers through her Algebra Teacher Squad membership and on-demand masterclasses focused on creating guided notes, leveled practice, and differentiation strategies that actually work. Her resources are practical, easy to implement, and built to make math more accessible—without adding to your workload.
